## MISSOURI CAREER GRADES

### JANUARY 2025

Career Grades are a tool to help make comparisons between occupations. Each occupation is assigned a letter grade from A+ to F based on its outlook over the next decade. Grades are based on a combination of projected total job openings, projected percent growth, and current average wages. Occupations with a grade of A or A+ have above average results in at least two of the three variables, while occupations with a grade of B or B+ have above average results in at least one of the three variables.

The West Central region is projected to have over 10,800 annual job openings through 2032. The vast majority (83%) of these openings are in A, B, and C grade occupations. In general, higher graded occupations have higher wages and growth rates. Grade A occupations earn an average wage that is 59 percent higher than the average wage for all occupations in the region in 2023 (\$47,419).
